St. Thomas Jr. High School

St. Thomas School, Partawal Bazar was started in 2003 by some eminent personalities of South India. The site of the school is surrounded by green fields & woods. At St. Thomas School we are committed to provide the best quality education to your child. Our aim is to encourage pupil to achieve their best and to lay the foundation on which their future learning is built. We aim to create firm partnership with parents as we feel that if we are working towards a common goal this will help each child to achieve their very best.

In our school every child is valued and respected. Our aim is to provide a caring and safe environment which will encourage your child to become self confident and self disciplined.

This prospectus is an introduction to our school. Please visit, telephone or contact to us for further information.

Excellent Education To Mould Excellent Citizen.

From The Desk of Director

It is my proud privilege to warmly welcome you into the prospectus of this learning community. The St. Thomas School is dedicated to develop skilled students who can pursue their interest and strengths to the best of their ability so that our enriched students merge into the society building a strong generation for a better world tomorrow through dynamic education.

We are committed to work collaberately with parents to nurture an individual who posses love for nation, society community & family values. We also expect that we as a family we will encourage the students to think critically.

We work with the core belief that wisdom can be cultivated gradually amongst all individuals. It is not enough to make children literate and academically intelligent what is more important is to make them wise so that they are able to use their intelligence judiciously. The school therefore has under taken a great leap in integrating information and communication technology into the class room teaching and learning process.

I would like to end with the words of Albert Einstein imagination is more important than knowledge. For while knowledge defines all we currently know and understand imagination points to all we might yet discover and create.

Thinking critically is the pinnacle of the accumulation of knowledge and experience.

Mr. Biju Mohan
